OBJECTIVE:

Obtaining a full-time position in a graphic design or multimedia firm, with an emphasis on creating design elements for the development and fabrication of a product.

PERSONAL PROFILE:

A devoted, creative, and goal-driven professional who creates high-quality work in a timely manner; believing that artistic vision is fostered by new experiences, teamwork, and the opportunity to learn.

RELEVANT EXPERIENCE:

- * Produced and managed commercial and data-based websites using HTML, Flash, SQL and other programs
- * Developed a unified style of commercially marketed printed materials
- * Drafted 3-D visualization of conceptual architecture using AutoCAD, Maya, and traditional media
- * Utilized various techniques, such as streamlining computer actions, to aid in efficiency
- * Created digital and printed advertisements for publications, including: New Homes and Living, Magnolia, and Seattle Homes and Lifestyles
- * Synthesized geographic maps and representations for the production of housing developments and communities.
- * Employed forms of digital media to generate sales presentations and other promotional tools
